

Informatics Engineering Postgraduate Studies
Weekly Program - WINTER SEMESTER 2020-2021

TIME	MONDAY	TUESDAY	WEDNSDAY	THURSDAY	FRIDAY
08:15-09:00		Advanced Software Engineering & Big Data Modelling, N. Vidakis & C. Aivalis teleconferencing – online course			
09:15-10:00			Applied Mathematics, D. Karagiannakis, B1 in class – physical presence		
10:15-11:00					
11:15-12:00			Advanced Programming with C I. Xezonakis, teleconferencing – online course		
12:15-13:00					Applied Mathematics, Exercises, E.Mageiropoulos, B1 in class – physical presence
13:15-14:00		Advanced Software Engineering & Big Data Modelling, N. Vidakis & C. Aivalis teleconferencing – online course			
14:15-15:00				Distributed Systems and Applications X. Papadakis teleconferencing – online course	
15:15-16:00	Advanced Topics in Networking, S. Panagiotakis, B1 in class – physical presence	LAB: Project Management & Research Methods, E.Tsiknakis, teleconferencing – online course			
16:15-17:00					
17:15-18:00			Project Management & Research Methods, E.Tsiknakis, teleconferencing – online course	Semantic Web, N.Papadakis, teleconferencing – online course	
18:15-19:00	Computational Intelligence, G. Papadourakis, B1 in class – physical presence				Advanced Multimedia and Graphics A. Malamos, teleconferencing – online course
19:15-20:00					
20:15-21:00
